

# Bosch G4 e\*spec Chainring Assembly e\*thirteen

## Purpose

Alert Customers to assembly difference between E\*Thirteen e\*spec chainrings on BOSCH G4 motor units

**Date:**

2024-11-05

**Released by:**

George Dubois

## Scope

use of O-ring, see picture

## Summary

BOSCH G4 motor assemblies come with BOSCH Supplied lockrings and o-rings for assembly with their spider.

The lockring should be used and installed per BOSCH Specifications.

E\*Thirteen does not recommend the use of the O-ring included, as it can bunch and interfere with proper torque of the lockring, and flatness of the chainring.

This assembly has been validated through machine and ride testing.

Please contact E\*thirteen with any questions or concerns in this matter.

Sincerely,

George Dubois  
Engineering Director, E\*Thirteen components
